SPECIFICATIONS

Metal will be transported to the facility by our trucks and bids will be on a percentage of the market value on a monthly average. During the past year, we averaged approximately 61.5 tons of scrap metal each month. Keep in consideration when bidding that some trash and other debris as well as water will end up in the containers by accident that is not necessarily scrap metal. The successful bidder will have adequate facilities to our trucks can be unloaded without having to wait for a long period of time. The facility shall be maintained so our trucks will not have a problem such as getting stuck as they come and go from the property. In the event the facility is not maintained adequately and our trucks get stuck due to soft ground, lack of gravel on roadways, or other problems, the successful bidder will be responsible for any wrecker charges.

With the market fluctuating like it is, **only bids in a percent form of the market value will be accepted.** The market value price for each month will be gathered **ONLY** by using Prices – Ferrous Scrap, Birmingham Market, for #2 bundles (tin and shredables) listed in the Scrap Price Bulletin. Cost of subscription to get price information is the responsibility of the bidder, approximately \$1450.00 per year. Price will be an average of the 1st and 3rd Monday issue prices for the month. EXAMPLE: If “A” Company bids 30% of the market price and the average rate calculated is \$100.00, “A” Company will pay \$30.00 per ton for scrap metal collected that month.

Payments for the scrap metal and appliances will be due on the tenth of the following month and are to be paid in full. A \$2,500.00 security bond will be required from the successful bidder and proof of liability insurance with Bedford County Solid Waste being shown as additional insured.

Neither the Bedford County Solid Waste nor any of its employees will be liable for any scrap metal or appliances after being discarded at the facility of the successful bidder.
